

**LICKEY**  
INSULATION WORK

**THE TURNKY SOLUTIONS**

*One Step towards the future...*

### Our Services

- AHU selection
- AHU Unit/FDV Unit/AIR Washer Unit
- Hot Installation
- Scrubber
- Ducting Layout as per site
- Ducting material
- Insulation material
- Terminal Hepa
- Hepa filter /Pre Filter /Fine filter
- Diffuser/Grill/Jet Nozzle
- Aluminum / G.I Damper
- Fire Damper
- SS grill
- Magnehelic Gauge
- Clean Room Layout
- Clean Room Wall Puff Panel (30 mm,50 mm ,80 mm thickness)
- Clean Room Ceiling
- Aluminium Coving
- Pass box-Static/Dynamic
- All S.S. acceseries

## INTRODUCTION:

Express Air services were established by the experienced professionals Engineers in the year 2005, at Vapi in a small way. Key strength of EAHS to provide the services of HVAC work in scheduled time line with quality and budget.

## OUR PRODUCT RANGE

### AHU (AIR HANDLING UNIT)

Double Skin Air Handling Units are one of the most versatile and premium products in HVAC. Now, Air Handling Units plays an important role in overall performance of HVAC system. In view of all the theoretical & practical problems, EAHS supply double skin units suitable for multiple applications. Self-supporting extruded aluminum frame work with injected PUF insulated panels provides strength & rigidity.

### FDV FORCED DRAFT VENTILATION

We are Supply floor mounted Supply FDV and Exhaust FDV. Our products are well known for high efficiency in controlling and maintaining the perfect condition for high productivity. The offered range is known for attributes like easy installation, cost-effectiveness, accurate dimensions and cost-effective.

### AIR WASHER:

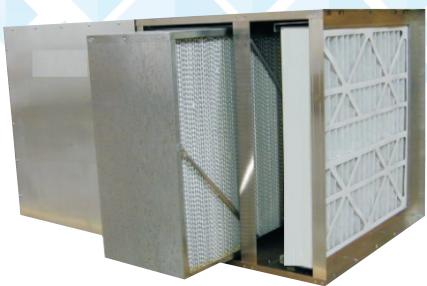

Express Air supply air washer for controlling the water temperature & humidification externally for industrial purpose.

### DUCTING INSULATION

Express Air Design and drafting route of ducting using REVIT software .Supply Ducting as per SMCNA. Express air supply and install factory and site fabricated as per site requirement. Express air supply and install insulation as per requirement.

## HEPA FILTER HOUSING BOX

Were supplies of ceiling suspension galvanized/ CRCA sheet powder coated construction laminar air flow housing with low leakages G.I. gear operated volume control damper, side connection, PAO testing arrangement, pressure plate to fixing of filter, Internal arrangement for fixing of HEPA filter & SS capsule perforated supply air grill.

## RETURN AIR RISER

Manufacture & Exporters of Wide Range of Return Air Riser Made out of 18/20 Swg. CRCA / Galvanize Powder Coated / Stainless Steel 304 Construction for Suitable of Wall Mounted Top / Side Connection With Arrangement of Manually Operated Volume Control Damper , Aluminum Powder Coated / SS 304 Capsule Perforated Grill & 20u

## DIFFUSER GRIL

Express Air Supply air Diffuser /Grill of Extruded Aluminum powder-coated complete with VCD. HDPE Washable Cassette Type Pre Filter.

## ACRUBBER

The wet spray scrubber can handle a variety of harmful gases. Gas is handled by direct contact between the gas and the circulating liquid.

The scrubber and ventilator are made of FRP, which has superior anti-corrosive properties. (the circulating pump is made of PP or PVDF)

Easy selection of models by airflow range due to diameter standardization.

## AIR FILTERS PREFILTERS, MICROVEE & HEPA FILTERS

Express Air Supply air Diffuser /Grill of Extruded Aluminum powder-coated complete with VCD.

## HOT INSULATION

We have expertise in the domain and provide Hot Insulation keeping the requirements of the clients in the mind. We take every measure for the timely completion of the undertaken project.

## MODULAR CLEAN ROOM WALL

### WALL

We Develop, Manufacture, Supply and Install complete Clean Room Modular Flush Sandwich Panels / Partitions. Our Panels are manufactured with Galvanized Steel Sheet (G.I.) for the wall skin and high quality of exclusive material Aluminum Profiles for Top & Bottom tracks and Vertical sides of panels for better flexibility & durability.

### CEILING

Our Ceiling Panels are either Walk On or Non Walk On made as per customer requirements which are built for all fittings / penetration to accommodate accessories used in a Clean Room Application.

### DOOR

We offer a complete range of Flush Doors with Vision Panels designed to integrate into wall systems like Sandwich Panels / Partition and Masonry wall for Clean Room Application. These are Scientific Doors specially for Clean Room Applications.

We Carry Out AMC Service....
